

How do I cut costs?

Savings

ELECTRIC - If your church uses PPL or MedEd for electric, go to papowerswitch.com and check to see if there's a better rate available. The website will tell you the rate PPL or MedEd is charging. Switching providers is super easy. You will still pay your bill to PPL or MedEd. Both companies offer PA Power Switch as a cost saving alternative on their website.

30-50%

PHONE - You can sign up for a free Google Voice number and receive calls through an app on your cell phone instead of using a landline phone. This is free and is easily transferred when you're on vacation or move to another position. If you would prefer to keep a phone at the church, you can purchase a magicJack on Amazon for \$40-\$100, plug it into your internet router and continue using your phone as normal. There are no monthly fees, unless you want to port your existing number. A new number is free with no fees.

About \$80-\$100 per month

WEBSITE - Sign up for the non-profit discount through dreamhost.com. This will eliminate your hosting fee and your domain fee per year.

\$300 per year

TECHNOLOGY - Sign up for a non-profit account on Techsoup.com. You can purchase steeply discounted licenses for Microsoft Office, Quick Books, and tons of other stuff too.

Varies depending on what you purchase

SUBSCRIPTIONS - Check all of your subscriptions for non-profit discounts. Check www.zeffy.com/blog/nonprofit-discounts for a full list. You will find Canva, Mail Chimp, Constant Contact, Zoom, etc.

Varies depending on what you purchase
